

The MOB Academy recognises the importance of providing the opportunity to improve the social, educational and employment outcomes of young men, in particular those who have experienced challenges effectively engaging in school, education and/or training.

Teachers and support staff will collaborate with students to map out an individual pathway plan in line with students' interests, strengths and abilities. Some of these outcomes may be; completion of Queensland Certificate of Education (QCE); TAFE, or workplace opportunities through our existing business community connections providing students direct exposure to workplace prospects and contacts.

Our students will have the opportunity to learn 'real life skills' as we take them through the fundamentals we believe all young men should know before they complete year 12. These 'life skills' will fall under different categories including financial, automotive, and employment skills, as we believe a genuine education should teach more than just academic skills.

Here at MOB we are doing things a little bit differently. We believe a complete education spans far past the traditional concept of sitting in a classroom and learning, it is for this reason we have designed our school with unique facilities to support our students learning journey, these include:

- ✔ Yoga and wellness studio
- ✔ Complete gymnasium
- ✔ Recreational room
- ✔ Digital recording studio
- ✔ Full kitchen
- ✔ DJ booth
- ✔ Basketball half court
- ✔ Chill out zone

WHAT IS THE MEN OF BUSINESS ACADEMY?

THE MEN OF BUSINESS (MOB) ACADEMY IS AN INDEPENDENT SECONDARY SCHOOL SPECIFICALLY DESIGNED FOR YOUNG MEN AGED 15-18 WHO HAVE FACED CHALLENGES ENGAGING WITH MAINSTREAM SCHOOLING.

The Academy bases its philosophy for education on the establishment and nurturing of positive and respectful relationships between adults and the young men to maximise their engagement, emotional well-being and academic achievement.

VISION STATEMENT

Our vision is to create 'real world' opportunities and 'educational' experiences for boys to enjoy, understand and share the responsibilities of being men in today's society.

MISSION STATEMENT

For the betterment of the entire community, we personally develop young men along the journey to manhood through role modelling and mentoring.

PURPOSE

The Academy will be the hub of the student's senior school years providing direction and purpose throughout their journey. Importantly, we will ensure exceptional opportunities are made available to masterplan their futures, through the well-established networks within the MOB community and the extensive experience in successfully working with young men.

The Men of Business Academy is committed to revolutionising the way some students view schools and their educational journey by providing a safe and structured progressive learning environment. We have recruited the highest quality staff from across the country and together with our community mentors, we will provide exceptional support and empower our Mobsters to achieve individual success.

We will tailor our educational programs to engage young men and meet individual student learning needs with a focus on student health and general well-being, whilst exposing them to the essential literacy, numeracy, life and career skills required to function in today's society.

The Academy is planned as a community hub, working with families and the broader community to help them achieve their goals. Students will be taught the values of respect, community, brotherhood, education, health and how to have fun whilst appreciating and accepting the diversity of their peers.

COMMUNITY

The MOB Academy operates under the banner of a Not for Profit Charity Company as an Independent Special Assistance School in Queensland. We have DGR (deductible gift recipient) status for donations and sponsorships as we are always looking for individuals and corporate sponsors to get involved in the MOB journey.

From day one the power of the MOB has been the support of successful businesses and individuals and the unique opportunities that they have provided to make a real difference in the lives of our boys. This large group of members and supporters have consistently provided mentorship in MOB programs while conducting fundraisers, events and seminars to foster better family relationships and support the MOB Academy. The deliberate integration of the young men into the community will be facilitated through volunteering at local events and work placement opportunities providing a complete experience for our students and their families.

Behind every successful person is a community encouraging, challenging and pushing them. Once you delve deeper into every individual who is thriving, charging into life and taking ownership for their development, you will find an encouraging group of people nearby. Together with our community we are here to provide these young men with the knowledge, experience and real-life skills that are going to take them to great places in life after school.
