# We Are Here For You

**Stymie** gives you the power to **SAY SOMETHING**.

You can use Stymie to send **anonymous notifications** about **any kind of harm** that you might be experiencing yourself or seeing happen to someone else. You can also ask for help from a counsellor.

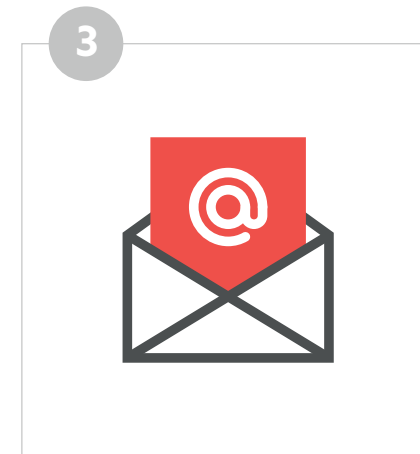

We help you to overcome the fears about speaking up because we know that speaking up can be challenging. Students report issues including self-harm, bullying, family violence, illegal activity, personal safety and fighting.

*An incident occurs that may involve family violence, self-harm, bullying, or illegal activity.*

*You use an internet-enabled device to make an anonymous notification via Stymie.*

*A person at your school receives the notification & gets help for the person who needs it.*

**make a notification at [www.stymie.com.au](http://www.stymie.com.au)**
